WILSON LAW FIRM
A PERSONAL INJURY LAW FIRM

The Wilson Law Firm is founded on the principles of personal service where the client comes first. These are basic ideas I put into place over twenty-five years ago that still work.

The Wilson Law Firm only represents injured persons. The concentration of the firm is on rail, truck, auto, rail passengers and crossing accidents where a serious injury results. The Wilson law firm was founded by Eddie W. Wilson.

Eddie has been representing injured railroad workers since 1983. As a former railroader, the experience Eddie brings to a railroad injury practice is invaluable. For decades, injured railroad workers have turned to Eddie Wilson and his law firm for skilled representation in the field of railroad injury law. Today, an injured railroad worker can expect expert attention and deep compassion from the Wilson law firm.

Our office is located in Virginia, with other employees in the southeastern United States. In our Virginia office, we have a modern, computerized network that houses legal information to assist us from all geographical areas.

The Wilson Law Firm has merged the values of personal service with modern technology. This combination is a powerful tool for trial, mediation and settlement negotiations.
